

Glydea™, the difference is in the detail

The sophistication of Glydea™ is reflected in the simple forms and sleek lines of the motor and the rail.

Aesthetic

- Somfy Innovation: Patented cover neat design hides the cabling and protects the connectors and the control modules inside the motor.
- Reduced gap light thanks to the rail design and the swivel ceiling bracket.
- Adjustable limits, to allow the curtain to fall nicely.

Flexibility

- Large offer of hardware: Components to adapt to different types of curtains.
- Somfy Innovation: Plug in modules for a large range of control systems.

Quiet

- Low noise level of the motorized track (<44 dB(A)), thanks to the motor design and the use of a timing belt.
- Soft start and soft stop.

Efficiency

- Touch Motion feature, to open and close the curtain simply by pulling on the fabric.
- "My" function, to automatically control the curtain to a preferred position.
- Adjustable speed: 12.5 cm/s to 20 cm/s.

Robust Design

- Somfy Innovation: Lyrease mechanical system which disengages automatically the motor drive shaft for manual operation preserving the fabric.
- Setting buttons and cabling not accessible to the end user.
- No maintenance necessary after installation..

Specification:

Somfy Curtain Tracks are a premium European product available with either 60kg or 35kg 220v motor, or a 45kg rechargeable battery powered motor. Brackets are available to suit Top Fix, Face Fix or Double Face Fix installation applications.

The track is available in both GLIDE and RIPPLE options. The Ripple Runners are available in a variety of fullness options. You can choose between the press stud and snap tape or hook tape options. The master carrier is driven by a low friction rubber belt, and different arms are available for the master carrier to suite your application.

MOTORISED CURTAIN TRACK
